Vaccination Policy

To prevent the spread of disease while your pet is in our care, cats must be current on rabies and distemper vaccinations. It is the responsibility of the owner to provide proof of vaccination history from a veterinarian for each animal boarding. To insure the protection of all the pets under our care, the vaccinations listed above must be current **prior** to boarding. Animals whose vaccinations are not current will be examined and vaccinated by Village Veterinary Clinic (VVC) prior to admittance **at the owner's expense** or they *will not be allowed to board*.

Owner specifically agrees that VVC shall in no way be responsible should owner's pet contract any illness while in the care of VVC.
